Competition 2009 in Singapore

Best of the Best in Global Art National  
Competition Indonesia 2009

## SKILLS

**React** redux, immutable, reselect

**Vue** vuex, vue-router

**Angular** rxjs, redux-observable

**Build Tools** babel, webpack

**Django** rest, uwsgi, nginx, mysql

**Adobe CC**

**Unity3D**

## EXPERIENCE

### Sea Group / Garena

Fullstack Engineer (Labs) Intern  
May 2017 - August 2017  
December 2017 - April 2018

Built Transify from scratch - a core internal  
tool for localisation and internationalisation.  
This application is continually used by all  
managers, developers, and translators in Sea  
across countries. Also worked on Talent Pool,  
Sea recruitment system.

Technology used includes React, Redux Saga,  
Django, NGINX, Jenkins.

### SAP Product & Innovation

Software Engineer Intern  
August 2017 - December 2017

Core team of SAP's Mobile Development Kit  
(MDK) - a metadata-driven framework for rapid  
mobile development, built on top of  
NativeScript, SAP Cloud Platform SDK for iOS.

Worked on SAP Asset Manager, fixed  
several bugs related to async handling, layouts,  
and offline file system.

### Pinnacle Investment Indonesia

Software Engineer Intern  
May 2016 - July 2016

Designed and developed company's corporate  
website from scratch until deployment with  
content management system. Worked closely  
with company's Board of Directors for design  
and rebranding strategy.

## SELECTED PROJECTS

### ICN Cultural Production

**Ticketing** [show.icnmusical.com](http://show.icnmusical.com)

A platform for better audience experience in  
watching theatrical drama (technical lead).

### PINTU Apps [pintusingapura.org/app](http://pintusingapura.org/app)

A centralised platform for NTU Indonesian  
Organisation services (frontend engineer).

### Vuex Search ★ 100+

[npm.im/vuex-search](https://npm.im/vuex-search)

Client-side search with indexers and Web Workers.

### Vue Text Highlight ★ 100+

[npm.im/vue-text-highlight](https://npm.im/vue-text-highlight)

Supports multiple keywords and regex highlights.

### Like+

[github.com/felixputera/LikeAR](https://github.com/felixputera/LikeAR)

AR Like buttons for Facebook. This project won  
1st place on Facebook Hackathon Singapore.

## ORGANISATION

### NTU Students' Union, 26th Management Committee

Design Director – Corporate Communication  
September 2016 - July 2017

Led a team of 9 members executing more than  
60 events publications including posters,  
banners, book, and product designs.

*Received Union Gold Award* - remarked as the  
most prestigious award presented to NTUSU  
committee, who have done above and beyond  
their line of duties and contributed significantly  
during the academic year.
